Versatility

Available in black, silver and navy, the Signature case comes in three flavors: Stainless Steel, Wood, & Italian Leather. Whatever your preference, there is a Signature uniquely tailored for you.

Brushing

The Signature employs meticulous nylon brushing, yielding a smooth texture without any unpleasant graininess or fingerprints. Our products are guaranteed to impress at your first and every encounter.

Computer-Numerical-Control

CNC, one of the most precise production methods available, is naturally selected to meet Truffol's stringent requirements. Every case is machined down to the 0.05th millimeter to ensure a perfect fit.

Italian Leather

Our fine Italian leather, sourced from Santa Croce sull'Arno in Italy, is trimmed to a precise thickness of 0.4mm. Every case represents unbelievable man-hours by expert craftsmen to ensure a wrinkle-free finish.

Nature

Machine-milled out of wooden or carbonized bamboo blocks, the Nature features painstaking hand-polishing for the perfect grip. Curved around the edges, the wooden back is paired to the Signature frame via six rubber-coated stainless steel clips to form an ultra-sturdy assembly.

Available in cherry wood, black walnut, carbonized bamboo, and black carbonized bamboo, the Nature represents the spectacular fusion of aluminum and wood. Feel the difference.

Black Collection

Luxury has never been synonymous with flashy, hence the Black Collection. Be it the matte stainless steel, the black Italian cowhide, or the black carbonized bamboo variant, your Signature case has never been so understated yet so irresistible.

16-Karat Rose Gold

Electroplated in real 16-karat rose gold using PVD (Physical Vapor Deposition) Ion Plating, the sleep / wake button on the Black Collection is coated by ionized rose gold particles in a vacuumed chamber with temperature north of 210 degrees Fahrenheit, resulting in a beautiful yet rigid surface. Our PVD products have undergone rigorous testing procedures – including bending, rubbing, and artificial sweat erosion – and are RoHS certified.
